

Meeting Notes compiled from Slaton and Chambers:

Judges needed for the ISEF science fair!

Keep current officers and think of new officers and at-large members on executive committee.

Other programs or societies to be contacted: UALR's Audiology program, US Geological Society, Architectural and Industrial acoustics (EV in Morrilton?), USM's speech and audiology group

Interest in "short courses" or "tutorial lecture" etc at meetings. Audio loudspeakers presented by Wayne Prather and Mike O'Neal (sp?) proposed for Fall 2008 meeting.

Possible other lectures/courses could be

"Architectural Acoustics"

"Industrial Acoustics and Noise Control"

Which may be linked with UM's distance learning efforts (Continuing education credits)

Fall 2008 meeting to be held in Oxford, MS in conjunction with the Sed lab's meeting. Need dates etc.

Spring 2009 - planned for February. Venues? Ed Goshorn at USM, or the Corp of Engineers in Vicksburg were suggested. Desire to have more student presentations at this meeting.

Treasurers' report

We got a seed grant from ASA of \$1000. To this we added \$350 from 22 paid meeting fees and 13 membership fees (\$10 each) . We had expenses of \$184 for lunch at the meeting and \$21 for check printing charges. This leaves us a balance of \$1145.

We are allowed to request \$500 and \$5 per attendee per meeting each year from the ASA. This request gets reduced as we exceed \$2000 in our bank account so the money is, to some extent "use or lose".

We discussed travel grants, especially for students, and especially for those that have the furthest to travel (i.e UCA-USM etc.)

Other uses for chapter money allocation should be considered and proposed.
